HIGH PERFORMANCE TROMMEL

The 512 screeners provide McCloskey™ customers with the functionality of our highly successful trommel line-up. The 512 Trommels are best suited for mid-size operations requiring portability and proven screening performance.

As the top selling mid-size portable trommel in North America, the 512 offers a combination of high production rates, versatility, ease of use and unrivalled strength that has ensured this screener's popularity with top soil producers, contractors, and landscape supply operators.

Our 512 range of models include the 512A wheeled unit with an extended fines conveyor, the 512R (wheeled) and 512RT (tracked) with our patented radial conveyor, and our 512RET that has been specially designed with compact transport dimensions for cost efficient ocean shipping.
